- **Built with:** Javascript, React, Redux, COVID-19 API
- **Visit website:** Remote Job Web App

MICROVERSE   Remote
Mentor (Volunteer)   March 2023 – April 2023
- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on maintaining motivation including daily achievements or projects as well as positive feedback to maintain longevity in the program.

[Tech A Intern](#)   Remote
Full stack Developer (Intern)   October 2023 – December 2023
- Write Clean and scalable code for frontend in typescript React.
- Integrate Real-time communication services with Node and Nestjs backend
- Documentation and CI/CD pipeline processes, written and duly followed
- Work with teams of different people globally with proper professionalism and conflict resolution

---

EDUCATION

MICROVERSE   February 2023 – Present
Remote Full Stack Web Development Program, Full-Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
